
OBJECTIVES

At the end of this training, participants will be able to:

- 1) *distinguish between different types of custody and correctional facilities
identify wellness resources and stress reactions in the body using present-
moment awareness*
- 2) *utilize resources to locate TB patients based on different custody status*
- 3) *identify appropriate questions to ask in order to promote continuity of care
for TB patients passing through the correctional system or Federal custody*
- 4) *describe common challenges in the continuity of care for this population*
- 5) *list some tips for promoting continuity of care for this population*
