

Tuberculosis Infection Control

A PRACTICAL MANUAL FOR PREVENTING TB 2023

2ND EDITION

UCSF
University of California
San Francisco

CURRY
INTERNATIONAL
TUBERCULOSIS
CENTER

The Curry International Tuberculosis Center (CITC) is a project of the University of California, San Francisco, funded by the Centers for Disease Controls and Prevention (CDC). The development of this educational material was funded through Cooperative Agreement U52PS910247. The views expressed in this publication do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Cover Art: The N95 respirator image is used as a representative example only and does not represent a specific endorsement by CITC of one manufacturer over other respirator brands or models. Image Source: CITC.

Permission is granted for nonprofit educational use and library duplication and distribution.

Acknowledgements

The following individuals are gratefully acknowledged for their invaluable participation and guidance on this project:

2nd Edition Contributors

Heidi Behm, RN, MPH
*TB Controller/Nurse Consultant
Tuberculosis Program
Oregon Health Authority
Portland, Oregon*

Robert Belknap, MD
*Director, Denver Metro TB Program
Denver Health and Hospital Authority
Associate Professor, Division of Infectious
Diseases, University of Colorado
Denver, Colorado*

Gary Blackwelder, BArch (retired)
*Architect
Division of Global HIV & TB
Centers for Disease Control and Prevention
Atlanta, Georgia*

Karen Brudney, MD
*Former Senior Expert Adviser on
Tuberculosis to the CDC (2013-2019)
New York, New York*

Kevin Fennelly, MD, MPH, ATSF
*Senior Research Clinician
Pulmonary Branch
Division of Intramural Research
National Heart, Lung, and Blood Institute
(NHLBI)
National Institutes of Health (NIH)
Bethesda, Maryland*

Disclaimer: These are my views and recommendations alone, and do not represent official policy or recommendations from the NIH or other organizations.

Lauren Lambert, MPH
*Epidemiologist
Surveillance, Epidemiology, and Outbreak
Investigations Branch
Surveillance Team,
Division of Tuberculosis Elimination
Centers for Disease Control and Prevention
Atlanta, Georgia*

Stephen Martin, Jr., PhD, PE
*CAPT, U.S. Public Health Service
Senior Research Engineer
Field Studies Branch
Respiratory Health Division
National Institute for Occupational Safety
and Health
Centers for Disease Control and Prevention
Morgantown, West Virginia*

Isabel Milagros Ochoa Delgado, MPH
*Architect, Urban Planner
Head, Infrastructure and Equipment Unit
of the Health Services Management
Institute (MINSA)
Peru*

Carrie Tudor, PhD, MPH, RN
*Deputy Project Director, SMART4TB
Research Associate
Johns Hopkins University School of Nursing
Baltimore, Maryland*

Richard Vincent, BS ARCH, MS
*Manager
Department of Medicine
Division of General internal Medicine
Icahn School of Medicine at Mount Sinai
New York, New York*

Michelle Pearson, MD (retired)
*Medical Epidemiologist
Division of Global HIV & TB
Centers for Disease Control and Prevention
Atlanta, Georgia*

Editors

Paul Arthur Jensen, PhD, PE, CIH
*Environmental/Mechanical Engineer
Cofounder and Independent Consultant
Final Approach Inc
Centers for Disease Control and Prevention (retired)
Port Orange, Florida*

Lisa Chen, MD
*Principal Investigator/Medical Director
Curry International Tuberculosis Center
Professor, Division of Pulmonary and Critical Care Medicine
University of California, San Francisco
San Francisco, California*

Project Manager

Kelly Musoke, MPH
*Deputy Director
Curry International Tuberculosis Center
University of California, San Francisco
San Francisco, California*

Fairfield, California*

Many individuals were involved in the writing, editing, research, and review of the previous edition of *Tuberculosis Infection Control: A Practical Manual for Preventing TB*. The editors of this second edition gratefully acknowledge the ongoing legacy of their contributions.

The following organizations were instrumental in creating the original products which were incorporated into this manual:

- Alameda County Public Health Department
- Boston Public Health Commission
- Broad Street Solutions, San Diego
- California Department of Health Services
- California Office of Statewide Health Planning and Development
- Cardio-Pulmonary Department, San Mateo County General Hospital
- Catholic Healthcare West
- Centers for Disease Control and Prevention
- Contra Costa Regional Medical Center
- Department of Emergency Medicine, Olive View-UCLA Medical Center
- Division of Tuberculosis Control, Los Angeles County Department of Health Services
- Fresno County Human Services System
- Harvard Medical School, The Cambridge Hospital, and Massachusetts Department of Public Health, Boston
- Homeless Health Care Los Angeles
- Housing Authority of Portland, Oregon
- Institute for Medical Quality
- Institutional Consultation Services, Curry International Tuberculosis Center
- Kaiser Permanente, Walnut Creek
- Missouri Department of Health, Section of Vaccine-Preventable and Tuberculosis Disease Elimination, Jefferson City, Missouri
- Oldham Engineering, Berkeley, CA
- Oregon Health Division
- Palo Alto Medical Foundation
- Austin/Travis County Health Department
- Sacramento County Department of Health and Human Services Public Health Promotion and Education
- San Diego County Health and Human Services
- San Francisco Department of Health
- San Joaquin County Public Health Services
- San Mateo County General Hospital
- School of Public Health, University of California at Berkeley
- Ted Jacobs Engineering Group, Oakland, California
- Texas Department of Health
- The Bromeen Group
- The Cotton Group
- The Salvation Army Bell Shelter, Bell, California
