

OBJECTIVES

At the end of this training, participants will be able to:

- 1) *describe hospice and palliative care services and how these can support TB patients at the end of life*
- 2) *identify tools and strategies for communicating with family members to build trust*
- 3) *identify three key factors to consider when a person with TB disease is at end of life*
- 4) *identify resources and strategies for coordinating TB care in long-term care facilities*
